

# Albertsons Companies expands recall on items containing chicken as part of a Tyson Foods, Inc. recall due to possible *Listeria Monocytogenes* contamination

BOISE, Idaho, July 7, 2021--Albertsons Companies (NYSE: ACI) announces the removal of additional items containing chicken as part of the recall initiated by Tyson Foods, Inc. The product has the potential to be contaminated with *Listeria monocytogenes*. On July 4, 2021, [Albertsons Companies announced a removal of certain Signature Café Shredded Roasted Chicken](#) that was also supplied by Tyson Foods. [Tyson Foods' recall announcement can be found here.](#)

The affected Tyson product was produced at one plant located in Dexter, Missouri, between December 26, 2020 and April 13, 2021, and distributed to foodservice and retail customers nationwide and in Puerto Rico. The affected Tyson products are being recalled as a precaution, due to possible exposure to *Listeria monocytogenes*, a harmful bacteria.

*Listeria monocytogenes* is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women.

To date, there have not been any reports of *Listeria*-related illness associated with any of the products listed in the table above.
