

Albertsons Companies Voluntarily Recalls **O Organics Organic Parsley and **O Organics** Organic Herbes de Provence in Cooperation with High Quality Organics and Red Monkey Foods, Inc. Due to Possible *Salmonella* Contamination**

BOISE, Idaho — October 13, 2020 — Albertsons Companies, in cooperation with High Quality Organics (HQO) and supplier Red Monkey Foods, Inc., has recalled **O Organics** Organic Parsley and **O Organics** Organic Herbes de Provence due to possible *Salmonella* contamination. The recall was initiated after a parsley sample, tested by one of HQO’s customers, was found to be potentially contaminated with *Salmonella*.

Consumption of food contaminated with *Salmonella* can cause salmonellosis, one of the most common bacterial foodborne illnesses. The most common symptoms of salmonellosis are diarrhea, abdominal cramps, and fever within 12 to 72 hours after eating the contaminated product. The illness usually lasts 4 to 7 days. Most people recover without treatment. In some persons, however, the diarrhea may be so severe that the patient needs to be hospitalized. Older adults, infants, and persons with weakened immune systems are more likely to develop a severe illness. Individuals concerned about an illness should contact their health care provider.

The Albertsons Companies recall affects the following products in the stores and states listed below.
